Dear Ghislaine Miller,

This is to acknowledge receipt of your email. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of ND-2015-20-E – (Duke Energy Carolinas: Foothills Transmission and Substation Project - 45-Mile Transmission Line Between Asheville, NC, Power Plant and New Substation Near Campobello, SC) and will be posted on our website under ND-2015-20-E.

Please let me know if you should require any additional information.

Sincerely,

Hope H. Adams
Administrative Coordinator
Public Service Commission of South Carolina
(803) 896-5122

Subject: Say No to Duke Energy

Please say No to Duke.

Why does it not matter that our foothills will be aesthetically, environmentally and physically desecrated?

Why does it not matter that our property values will plummet?

Why aren't our leaders concerned that this project will ruin the tourist industry in our area, an industry we have worked so hard to establish?

Duke's plan to build overhead lines will surely have a serious, negative economic impact on the foothills and it will kill our small businesses who struggle to stay afloat.

Even in remote villages in Europe, power lines are run underground. Why is it Duke will be allowed to scar this beautiful land?

As far as domestic and foreign terrorism, we should be looking to make our grid safer and burying those power lines. It just makes good sense. It may not be too far in future that there may be a mandate from the Federal Utility Commission that all power transmission lines will have to be constructed underground.

Remember the track record of this company. Duke left behind so much pollution and destruction at the coal fired plant in Arden and, now they plan to destroy the beauty of our mountains with another one of their ill proposed projects.

We plead with you to protect the citizens and our land. Please do whatever is within your power to deny Duke this project. Thank you.

Ghislaine Miller

2017 State Representative
District 10
